Skills and Educational Achievements

After taking a year of *Computer Information Systems* and being halfway to my diploma from **Okanagan College**; I have achieved above average knowledge in both computer programming and networking.

- Using the **Java** programming language I completed many projects, including a side scrolling video game and an *Artificial Intelligence* to play the game Battleships.
- With the **Visual Basic** language, I created two applications; one to simplify the food ordering process and another which provided basic encryption.
- Created a file-transfer server to facilitate the sharing of documents between computers using **Windows Server**.
- Demonstrated a high level of expertise in **network administration** including network creation and subnetting.
- Very experienced in **Microsoft Applications** including *Word, Excel, PowerPoint* and *Project*.

Experience

- Fulfilled my role as a full-time cashier for **LordCo AutoParts** for a period of five months before leaving to pursue my education. This position involved navigating a large database of products and interacting with a text-based DOS system.
- Worked part-time for over a year as a cook with the *Lakeshore Dairy Queen* location. In this position I handled food preparation and maintained a sanitary workplace in a high-pressure environment.
- Volunteered as an assistant to adults with special needs at **Parkinson Recreational Center**, in the *Summer Drama Intensive* program for a period of two years. This involved participating in games, activities, and creating performances for the adults to act in at the end of the program.

I left all of my previous jobs on good terms and references are available on request.
